

United Methodist Preschool Commission
Church Council Report
March 29, 2016

Licensing - Community Care Licensing made an unannounced visit on Wednesday, March 23rd to inspect the premises and to approve our request for increased enrollment. We passed the inspection with flying colors and no violations were cited. A recommendation was made, however, that we increase the amount of tanbark, which was found to be too thin in some areas of the playground. Ten yards have been ordered and will arrive and be distributed after Spring Break.

Our new increase is approved from 46 to 50 children, effective immediately. New certification reflecting the increase is now visible in the foyer of the preschool.

Registration 2016 – 17 – Registration opened on 1/11/16, for continuing and returning students. New student registration is now open. Tuition rates remain the same, with the exception of the 2-day 2's program, which rose from \$350. to \$375. a month. This increase will help in planning a payroll increase for the next school year.

Enrollment for 2016 – 17 School Year – As of 3/25/16:

2-day, Two's Program	10 enrolled	6 spots available
3-day Program	25 enrolled	4 spots available
4-day Program	21 enrolled	4 spots available

Parent and Teacher Surveys – Currently the Commission, under Judy Slinger's direction, is designing a parent survey, to provide parent feedback on program implementation, and a teacher survey, to provide teachers an opportunity to evaluate their school year and staff/administration relations. We hope to have the surveys available after April 12th.

Winifred Stribling, Chair

Preschool Commission
